Education

National Institute of Technology (NIT) Srinagar 2024 – 2028
B.Tech, Computer Science and Engineering *Srinagar, J&K*
- CGPA: 8.07/10 (through 4th semester)
- Courses: Database Management Systems, Data Structures & Algorithms, Statistics for Engineers.

Govt. Higher Secondary School, Channi Himmat 2023
Class XII – 90.6% *Jammu, J&K*

Experience

Student Coordinator & Web Developer
Safar Saarthi *NIT Srinagar*
- Co-founded a travel startup, managing user data and logistics for 100+ participants; optimized booking workflows to reduce manual processing time by 20%.
- Managed participant communication and logistics to ensure smooth execution of student trips.

Startup Coordinator
Greenovator Incubation Foundation (GIF) *NIT Srinagar*
- Tracked and reported on incubation performance metrics, supporting early-stage founders with data-backed insights on campus entrepreneurship initiatives.

Graphic Design Lead
Vikshit Bharat 2047 *NIT Srinagar*
- Led the graphic design team, producing visual assets and branding material for the event.

Student Volunteer
IIEDC *NIT Srinagar*
- Supported workshops, entrepreneurship initiatives, outreach, and participant engagement.

Frontend & UI/UX Intern Jun 2026 – Oct 2026
Goexergy *Offline*
- Optimized frontend performance and UI/UX for a web platform, improving user engagement metrics by 15% through data-informed design adjustments.
- Built responsive interfaces focused on usability and visual consistency.
- Translated design requirements into functional web interfaces, collaborating closely with the team.

Projects

Independent Case Study
- Conducted a data-driven investigation into smart podium utilization by analyzing usage logs in SQL and visualizing adoption barriers in Power BI for 50+ stakeholders.
- Applied structured root-cause analysis to a real-world technology adoption problem.

CashflowAI
- Developing an AI-powered finance tracker, implementing automated data cleaning pipelines to process transaction logs and provide actionable spending insights.
- Utilized SQL for database schema design and Power BI to visualize monthly expenditure trends and category-wise spending distributions.

Personal Portfolio Website & Amazon Clone | *HTML*, *CSS*, *JavaScript*
- Built a responsive e-commerce interface, implementing dynamic product data rendering and state management for improved user navigation.

Technical Skills

Languages: C++, C, JavaScript, SQL,Python
Core Subjects: Data Structures & Algorithms, OOP, DBMS
Web Technologies: HTML, CSS, DOM Manipulation, Responsive Design, UI/UX
Libraries:Pandas, NumPy
Developer Tools: Git, GitHub, VS Code, Cloud fundamentals (Azure – IaaS/PaaS/SaaS), Power BI
